## Boards Schedule Straw Vote For Joint Hospital Issue

### Questions Some Folks Are Asking About The Proposed Joint Hospital

Following are a few of the questions being asked by many of Belle Glade-South Bay area citizens on the proposed joint hospital vs. expanding and improving present facilities. These were presented to Southwestern Palm Beach County Board on Tuesday. Their replies will be forthcoming and will be published in subsequent issues of THE HERALD.

1. Why was August 21, selected for the straw ballot election. (Won't many freshers be away on vacation at this time of year?)
2. What will this straw ballot allow the citizens of Belle Glade, South Bay, Lake Harbor and Bean City to vote for or against?
3. Is the possibility of new and improved hospital facilities for Belle Glade on our present hospital site being considered by our own Southwestern Hospital Board?
4. What guarantee would the public have that a new joint hospital would be accredited more easily than our own?
5. How has it been determined as to where the new and improved hospital facilities should be located to best meet the medical needs for cost of the Glades?
6. What will be done with our present hospital facilities. At how much loss or increased cost to taxpayers?
7. How does tax millage compare on a joint venture to that of improving facilities in the Southwestern Hospital district?
8. Is it not safe to assume that Southwestern Hospital district would be eligible for Hill-Burton funds for improving and enlarging our present facilities?
9. With the present hospital building boundaries, what amount of Belle Glade residents' tax money yearly goes to the Pahokee (Northwestern) Hospital district?

#### Senior Life-Saving Course Available At BG City Pool

Manager Fred Ferinden announces a course in Senior Life-Saving and Instructors Course available at Belle Glade Municipal Pool if interest justifies. At least twenty people should be enrolled, he said.

Mr. Martin Iselt of Palm Beach County Chapter Red Cross will be the instructor. Age minimum is 18 years or eleven years.

Interested adults are asked to contact the pool manager, telephone WY 6-2350, within the next week.

### Gail Parker And "Patnettes" Win First Place At Silver Springs

Gail Parker and the "Patnettes" under the direction of Miss Pat Anderson competed in the Florida State Open Twirling held at Silver Springs. More than 450 girls participated in the contests. Gail is surrounded by other trophies recently won by The Patnettes.

Williams, Pam Whitlock, Pandey Bus, Harriet Dunlap, Barbara Ellis, Linda McDowell, Ivy Lou Barrett, Kit Weeks, Paige Grover, Jackie Baughman, Linda Bauman. Drummers were Mike Marotta and Chappie Young. Other members participating in other contests but absent for Silver Springs are Cecelia Enfinger, Vickie Betzer, Katherine Smith and Brenda Buckner.

Pat was invited to judge at the contest. Pat wanted it pointed out strongly that she was successful at the contest that no judge was allowed to judge their students.

Girls interested in becoming a patnettes should contact Pat Anderson as new classes will be formed this summer.

### Changes Effectuated In City Posts By South Bay Council

At a special called meeting of South Bay City Commission Tuesday night it was voted that the office of city manager, for South Bay, be eliminated for the present time.

The resignation of Albert Smith city manager was accepted effective June 15th, following six months service.

Mrs. Joyce Partain, was promoted from assistant to city clerk.

At the recommendation of Chief of Police Marvin Davis, Lewis Woodham was appointed by the council as policeman, replacing Donald Barnes, who was suspended June 3, and relieved of his duties June 14th. Woodham will take over his duties July 1st.

Max Howell, Sup't. of Waterworks and Building Inspection, was cleared of charges brought before the council, when it was determined that the remarks against a member of the council attributed to Howell could not be substantiated.

### Attendance Good But Rain Hampers Rec. Program

Belle Glade's Summer Educational Enrichment Program, sponsored by the Palm Beach County Board of Instruction, began last night at McDonald Park with a registration of 125 early in the week. Coach Jim Maynor, stated that rain had hampered the program but attendance has been good.

Coach Maynor and Coach Bill Holton of Pahokee are working in the program by the county Board of Instruction and workers supplied by the city of Belle Glade are Mrs. Jenny Robinson, Mrs. Ursula Glisson, and Mrs. Gladys McDonald, in charge of park.

Games of kick ball, soft ball, shuffle board, ping pong, circle games and quiet games are being enjoyed by all. One of the most popular activities is a 30 minute exercise period for all.

Individual tennis instructions are being given with Coach Hobson teaching beginners and Coach Maynor advanced.

### They Call Him "Happy" Sabiston

You could walk back and forth and round about in Belle Glade packing house district asking "Where is Mr. M. M. Sabiston?" and about the only answer you'd get would be a vacant stare. But if you'd ask "Where might I find Happy?" somebody would be sure to say right quick, "Shucks, he's over at Hector's of course." He's been there since Nero was a pup. You'll know him by that white hair of his.

Now Hector, in case there's

### Acceptable -- Accredited

The State Board of Health determines whether a hospital and its services are "Acceptable" — physical equipment and services. The Joint Commission on Accreditation determines whether the equipment and services are of such high standard as to be "Accredited".

Belle Glade has 45 beds — it is "acceptable" but each of certain services, plus deficiencies in physical equipment have prevented it's being "Accredited".

During the administration of the present Manager, and with the untiring zeal of members of the Board, plus cooperation by the doctors, have rounded out, added to, and modernized services, and equipment that add materially to possibility of Accreditation. WHEN A PROPER BUILDING AND EQUIPMENT

**C of C Directors Breakfast June 27**

The Chamber of Commerce Board of Directors is having another breakfast, similar to the one last December, on June 27, 1962 at 8 a. m. at the Civic Center.

The purpose is getting a birdseye view of what your Chamber has done in the last 6 months.

"Take this opportunity to come and look at what we have done and offer any constructive criticisms you have and watch your directors in action while they are cooking and serving you bacon, eggs toast and coffee," vice-president Labron Willis said. All free, costs you nothing.

The program will be brief, start promptly at 8 a. m. and conclude promptly at 9 a. m.

"All we ask is that you call your Chamber if you are coming or sign the card you receive in June 25, so that we can prepare enough. Please do this by June 25, the officers of the association."

### Hopes Are High For Next Year On 4-Laning Road 15

"We didn't get what we wanted, but we planted the seed," City Manager Owens commented on the meeting of Belle Glade representatives with State Road Department heads Monday in Ft. Lauderdale.

The meeting arranged and emceed by County Commissioner Rardin urged petitioners the State Road Department to four-lane State road 15 from Avenue E North to Hooker Highway.

Backing up the plea were 18 civic leaders from Belle Glade — representing the Rotary, Lions, Lions, City Commission and Chamber of Commerce, joined by the County Commissioners.

"When 18 business men take time off from work to attend such a meeting and sign a petition, it is sure to be left," Owens said. "I believe if we follow up on this we can get it thru in another year."

Policy man for the State Road Department John Monahan, while attending a sympathetic, said the department was already committed for 11 million dollars worth of road building in Palm Beach County. "I believe if we follow up on this we can get it thru in another year."

The watch is engraved in recognition of half a century of service. It was presented in a special ceremony by D. E. Wyllie, Western Union District Manager.

Mr. Kirkland started work with Western Union at the age of 20 in Ft. Worth, Texas, where he learned Morse code. With in a few years he had been promoted to the position of Manager at Eastland, Texas, and was there during the famous Eastland oil boom. He moved to Florida during the Florida boom and was Western Union's manager at Cocoa from 1925 to 1928, after which he was manager at Key West for five years. After several years as manager at Cedar Keys, he moved to

### Overload Of 167 Percent In 1962 For Belle Glade Memorial Hospital

A joint hospital proposed for the Belle Glade-Pahokee area and estimated to cost two million dollars could bring accredited facilities to Western Palm Beach County for the first time in the history of the two communities, the combined board of the Northwestern and Southwestern Palm Beach Hospital Districts said today. Should the joint hospital be approved, facilities for services to be rendered would include diagnostic and treatment, nursing, surgical, obstetrics, emergency, outpatient, contagious disease unit, pediatric, rehabilitation and other.

The Board further reports: At present, there are two existing facilities in the area totaling 91 beds. Neither is accredited. At Belle Glade Memorial Hospital, percentage of occupancy increased from 56 percent in 1960 to 67 percent in 1961. This year it has been reported that up to 75 patients have been treated in one week in the 45 bed facility, an overload of 167 percent. This situation has occurred despite the fact that many patients with financial ability have gone to larger hospitals in West Palm Beach.

The average rate of growth for the Pahokee-Belle Glade area is then estimated at about 5 percent per year prior to 1960. A higher increase is expected over the next five years.

Existing hospital needs indicate that present facilities in both Belle Glade and Pahokee are inadequate. The proposed joint hospital would initially contain 100 beds with 60 facilities for 175 bed capacity. It would replace the two hospitals now in operation, each having its own complete operating and administrative staffs. A straw vote to be held August 21, will give freerholders the two districts an opportunity to voice their approval or disapproval of the joint hospital proposal.

### Pupil Assignment Deadline July 16

In order that Applications for Pupil Assignment may be properly processed by the Superintendent's office, it will be necessary that all applications for the 1962-63 school year, beginning in September, 1962, be filed at the office of the Superintendent of Public Instruction, 301 North Olive Avenue, West Palm Beach, Florida, on or before July 16, 1962.

All applications shall be judged on their merits. Only hard-ship cases shall be considered for exceptions filed after July 16, 1962.

### "Mr. Kirk" Retires After 50 Years Service With Western Union Company

Belle Glade as manager of the local office, a position he has held since 1935. At the time of his appointment to the Belle Glade office, Mississippi was one of the few remaining Morse operated offices.

"Modern telephony is certainly far different from the old-fashioned dials of years ago," said Mr. Kirkland. "Today Western Union operations are highly mechanized and messengers speed coast-to-coast in minutes through high-speed message centers equipped with electronic brains and push-buttons. It may not be as colorful as Morse, but it's a lot faster, and more efficient."

A resident of 916 East Palm Beach Road, Mr. Kirkland plans to retire on July 1 of this year. "I'm just going to take it easy and enjoy life," Mr. Kirkland said.

## Uncle Dan from Doolie Says:

Dear Mister Editor:  
I see by the papers where the Civil War is about to break out again between our Yankee and Confederate Senators in Washington. One Yankee Senator allowed as how the South, except for her ancestry, cotton, football and the Miss America contest, didn't have much future. A Confederate Senator replied that if the North didn't quit trying to run the South's business, the Confederates was going to have to take another pot shot at Ft. Sumter.  
Such goings on in the capital of the nation! It's a great pity we ain't got more United States Senators and less Yankee and Confederate Senators in Washington. I recollect reading about a sign a feller in Florida had out in front of his tourist cafe. It

read: "Confederate Cooking Yankee Style" Now there was a real diplomat, a feller that belongs in the U. S. Senate. Sometimes I think all we recollect on, when somebody ask Cal Coolidge why he was known as "Silent Cal," said he had found out early in life that a feller never had to explain some pun he never said. I reckon that's good advice for all of us, especial the wimmen folks. Clem Webster was telling the fellers at the country store Saturday night about the time he took his old lady to the doctor and the doctor put a thermometer in her mouth and told her to keep it shut for five minutes. Clem said there was the most enjoyable five minutes he ever spent said he ask the doctor what he'd take for that d-d-burned thing.

After the fellers got all the wimmen problems settled Saturday night, they got around to discussing Liz Taylor. On account of the language they was using, I'm mighty glad Zebie Grubb's preacher didn't drop by for a spell. About the last we heard from the good Parson, he was giving ultimatums, and if he'd been there Saturday night he would have got ulcers deluxe. According to some of the fellers, Liz has announced she ain't planning another marriage right soon. Ed Doolittle allowed as how they was much planning to her other four and he wouldn't see how number five would need none. And that Mister Editor, is about all they said about Liz that you could put in a family newspaper.

Well, politics for the November elections has got started pretty good. If we got to have a drouth this would be a good year for it. With about half the crop work eliminated by a drouth, farmers and ranchers would have more time to spend on politics and the Government would have to worry less about the surplus. We got plenty of candidates around the country but not many issues. It's like the cafe owner that told a customer, "We ain't got nothing today but ham and eggs, but we can offer you a fine choice of waitresses."

Yours truly,

## Letters to the Editor

(Letter from Julian Griffes, former director of Christian Ministry to Migrants at Ocala Center, and his wife Ruth Griffes. Julian has been working with the Peace Research Institute in Canada since last November.)  
1250 Second Ave.  
Oakville, Ont.  
June 10, 1952

Dear Friends,  
This seems like a Florida day - everything blooming and green, warm sun this morning, rain this afternoon. So while we were thinking of you, it seemed like a good day to sit down and write.

Response of Canadians to the news of a Peace Research Institute has been heartening. After a slow, tedious start last winter, the need to put money and mind into peace like we do into war has finally caught fire. 17,000 people have given a total of \$215,000 for the Institute. 2500 people have gone door-to-door in 18 cities telling them about this approach and asking for contributions. One little shut in lady got on her phone and raised over \$300 for peace research!

This week a group of keen scientists (from both the social and physical fields) are meeting at McGill University in Montreal to discuss the actual program of the Institute. A number of interesting studies, more or less related to peace, are being done here and there at universities; but the Canadian Peace Research Institute is trying to determine which of all the research studies that might be done on peace... which must be done first to prevent war. What is the minimum we must do to buy time to do the rest?

Next week-end Julian will represent the position of a meeting of American scientists in New York... a group which call itself "S. O. S. - Scientists on Survival." Scientists seem to understand the handwriting on the wall more than the average person. The very existence of a group like S.O.S. indicates the gravity of our predicament as we face the possibility of nuclear war.

An Oakville man figured out a graphic picture of the leap in war-power over the past two decades. "If we let a 12 inch ruler represent the biggest bombs of World War I, the Empire State Building to represent the power of the atomic bomb dropped in Japan, by the same scale, it would take a measuring stick 278 miles long to represent the power of one 20 megaton hydrogen bomb."

Much as we would enjoy returning to Florida at the end of our year's leave of absence, we have decided to stay on and do all we can to help the Institute. The children keep asking, "When are you going to get done working on peace so we can go home?" But they really are making a happy adjustment to Canada and will never feel Oakville is quite as much home as Belle Glade was we are sure.

Some of you met Julian's father on his Florida visits. He died Friday after a period of rapid aging, a stroke, a fall and two months of unconsciousness. His more than eighty years were full of life and we feel lucky to have had him this long. With our best of all of you, Ruth & Julian Griffes

## Former Belle Glade Resident Spivey Selected As "Soldier Of The Month"

Cpl. Clarence W. Spivey, Jr., of Mrs. Karon Spivey, Jr., 220 5th Street, Alhambra Park, Sarasota, Florida, has been selected as Fort Lee's "Soldier of the Month" for April at Fort Lee, Va., home of the quartermaster training command.

Cpl Spivey was previously employed by Sears Roebuck and Company as a Store Manager in Belle Glade, Florida.

In a formal ceremony held at Post Headquarters, Maj. Gen. Hugh Mackintosh, Commanding General of Fort Lee, presented Cpl Spivey the "Soldier of the Month" certificate which cited him for his outstanding appearance, attitude, exemplary conduct, military proficiency and knowledge of current events.

Competition for "Soldier of the Month" begins at company level, with final selection at Post level, with a representative of each organization competing. Selection as Fort Lee's "Soldier of the Month" entitles the winner to a three-day pass, and \$50.00 to pay his expenses to a place of his choosing.

Cpl Spivey has been an active force in the training of Military personnel as a Battalion instructor. He has contributed his talent and personal insight as Staff Writer in the publication of the Battalion Newspaper called "The Pipeline." He is a member of the 149th Quartermaster Company (Petrol Depot), and was among those chosen to represent the company in the Post Bureau Escort.

Cpl Spivey is assigned duty as a pipeline section chief and is responsible for planning, organizing, and supervising permanent and field petroleum depot, terminals, and dispensing stations.

The home station of the 149th QM Co. was formerly located in West Palm Beach, Florida; it's two Pipeline platoons were in Belle Glade, Florida. This National Guard unit ended active duty with the Army Oct 1, 1951.

Cpl Spivey graduated from Manatee County High School, Bradenton, Florida in 1955. He graduated from Florida State University in 1959, and received a BS degree in Management and Finance. During his 4 years there, he was an active member of the Theta Chi Fraternity.

**Devil Water . . .** By Anya Seton. This is the true story of Charles Radcliffe, who escaped from Newgate Prison after his brothers execution, of Jenny, his daughter by a secret marriage, and at the end of the strong affection between them, which endured through years of separation and despite conflicting beliefs and loyalties. The stream called Devil Water ran . . . and still runs through the Northern Brian estate of the Radcliffe, Exirs of Derwentwater. The Radcliffes were doubly bound to the ill fated Joco Bite cause by their Roman Catholic Faith and Stuart blood. The themes of this book are loyalty, courage and like The Winthrop Woman, Devil Water is a story of the old World and the new. It combines thoroughly documented history with superb story-telling.

**Moscow Interlude . . .** by Charles W. Thayer. Sam Matlock married to a beautiful Russian girl, Elena, was "Russian Expert" in the U. S. embassy in Moscow . . . After five years she had been allowed to leave Russia. Now ten years later, with Stalin dead and the terror officially ended, they had returned. To Elena, back in her own land, among her own people, the "New" Russia seems of Paradise. Being Elena, spoiled herself she proceeds to behave as though indeed she were in Paris or New York City or Rome. . . Only pleasant: Birch trees, mushrooms and delightful companions throng in. Until having all but brought her own world and a sizable chunk of "her" world crashing about her ears, Elena at last discovers her true connection with her native land. Astute, illuminating, full of authentic flavor, in its heroism's fine regeneration through catastrophe, Moscow Interlude recalls one of the great themes of Russian Literature. -Ruth Clemens.

**Veterans Warned On GI Insurance**

More than 3 million veterans should give careful study to their GI insurance holdings, according to F. L. Presher, Officer in Charge, VA Office, West Palm Beach.

They are still holding GI term insurance, which can play a valuable role for a growing family but which may become prohibitively expensive for a veteran near the retirement age.

"Many older veterans are now finding themselves unable to continue their term insurance payments at their greatly increased rates and unable to obtain new insurance coverage," he pointed out. "If they die, their widows will have nothing, yet over the years the veteran may have invested as much as \$7,000 or \$8,000 in this form of insurance."

The VA office disclosed that in all about 14,000 World War I veterans still hold U. S. Government Life Insurance term policies which originated in the first World War. More than 255,000 World War I veterans have converted their term policies to a more permanent plan of insurance.

National Service Life Insurance, originating in World War II, is still held by more than 850,000 Florida veterans.

"Veterans should remember that a term GI insurance policy that carries an annual premium of \$9-a-thousand at age 35, jumps to an annual premium of \$17-a-thousand by age 65 and to \$73. 16-a-thousand at age 70," Mr. Presher concluded.

## Attractive You

"No tint, or not to tint?" That's a question as serious to most women as Hamlet's "To be or not to be," was to him.

We accept the need for regular shampooing and the ensuing ritual of brushing to help keep our hair lustrous, yet many of us hesitate at the idea of employing hair color.

Some are dubious of the reception that tinting will receive on their friend husband. Others worry about how the bridge club will react when dull, gray hair regains the vibrant color of youth.

And many women feel that tinting requires hours in a beauty shop—hours they could devote to take from their daily routine.

There really is no need for fear. Just what there is need for a woman to have hair that appears old and colorless.

Hair tinting is as acceptable today as lipstick, powder and the other make-up aids women employ to present their best appearance at home and in public.

The American husband takes pride in his wife's appearance and expects her to enhance her beauty with modern cosmetics.

If hair tinting helps her recapture youthful coloring, he'll accept hair tinting and like it. He may grumble at first—all husbands do—but secretly he'll be proud of his wife's glowing hair.

With today's modern hair-care products, tinting can be done by the average woman as easily as applying nail polish. These products enable you to restore natural color in one easy step in the privacy of your home.

And you don't have to worry about the results. Latest developments in hair tinting products do all the work for you. Tremaine, for example, contains built-in timer that enables you to achieve the shade you want no matter how long it left on your hair.

Hair tinting can improve your outlook. You'll take a new interest in your make-up, your clothes and your overall appearance. And others will take a new interest in you, also.

## Jehovah's Witnesses Plan Dist. Conv.

Joseph P. Dixon, minister of the Belle Glade congregation of Jehovah's Witnesses, announced today that plans have been completed for a three-day district convention of the religious group in West Palm Beach, July 12 to 14.

Approximately 4,800 delegates representing South and Central Florida, are expected to attend sessions scheduled for the Palm

Beach Jai Alai Conv. Dixon said a record 40 delegates will represent Belle Glade at the district meeting.

**First District Meeting**  
E. W. Hooper, supervisor of Florida Circuit No. 6, which includes Belle Glade, said this will be the first district convention ever held in West Palm Beach. A similar meeting in Miami in 1960 had a peak attendance of nearly 10,000.

"We are receiving requests from all parts of Florida for accommodations," Hooper said, "and many people from other parts of the nation have manifested a desire to attend the West Palm Beach convention."

**Delegations to Attend**  
Delegations are expected from as far South as Key West. All cities on the East Coast are sending representatives plus numerous congregations from Ft. Myers to Tampa on the West coast and several inland Florida cities.

Miami is sending the largest delegation which is expected to number over 2,500.

**Local Delegates**  
Attending from Belle Glade are Mr. and Mrs. J. M. Morris; Mrs. Leroy Tillman and family; Mrs. Florence Mackey; Mr. and Mrs. Arthur Thibodeau; etc.

## Methodist Welcome Rev. W. R. Boland

The Rev. W. R. Boland preached his first sermon Sunday at Community Methodist Church, replacing Rev. Lee D. Rustin, who was appointed to Riviera Beach.

Rev. Boland comes from First Methodist Church Lake City, Fla., where he was minister for the past five years. He is a native of Illinois and came to Winter Haven, where he graduated from Winter Haven High School. He is a graduate of Florida Southern College, and received his theological training at the Divinity School, Duke University.

He served in other pastorates, including eight years at Lake City. During his years at Lake City, he established the First Methodist Church and was instrumental in the construction of a new educational building.

Rev. and Mrs. Boland have two boys and one girl. Joyce will be a junior at FSU, George, a senior at FSU and Sally Ann, a junior in high school in the fall.

Following services Sunday night a reception was held welcoming the new minister and his family.

**United Clothing Appeal Discussed By Ministers**  
The Belle Glade Area Ministerial Association met at the Cottage Grill along with their wives for a luncheon and business meeting.

The group discussed the United Clothing appeal, taken up for needy people throughout the world. The project will be in October.

Rev. W. R. Boland, pastor of the Methodist was welcomed as a new member by Rev. Peacock, student pastor at Everglades Presbyterian Church was a visitor.

## Let's Take A Trip

First, it is our prerogative as free men to decide where we are going and let's suppose in this case we are going to Los Angeles. The first thing we must do is count the cost and make the necessary preparation. Any place that is worth going to is worth getting ready to go.

Now that we have chosen the place we are going to visit, we want to be sure to get there. The next step, therefore, is to go to the gas station and get a road map, fill the car with gas and we are off on our trip.

As we travel we check the road map over and over again to keep from getting lost. Even the roads are lined with signs directing us on our journey. Finally we get to Los Angeles and then we find that even the streets are numbered to help us. The houses are numbered so we know for sure where our friends live. By following these directions we reach our destination safely.

We all want to go to Heaven but we are free to make the choice. God won't force us to come to Him. If you really want to go, may I suggest you get a Bible (which is God's road map to Heaven). You will find these things pointing to Heaven—Faith in Christ, Repentance of Sin, Confession of Faith, and Baptism for the Forgiveness of Sin. Then FAITHFUL OBEDIENCE. LIVING will take us to our final destination safely.

## ABUNDANT LIFE

By ORAL ROBERTS

### THE SHAPE OF YOUR HAND

One morning a mother fixed her young son a lunch of five loaves and two fish and sent him to her Jesus' church. The boy found a great crowd listening to Jesus. He sat down to watch and to listen. He was so interested that he forgot to eat his lunch. He was hungry. That evening he saw the disciples around Jesus. Edging over nearer them, he heard Jesus tell his disciples to give the people something to eat. Suddenly, a man knelt down and put his hand on the little boy's shoulder. The man was one of Jesus' disciples, Andrew. "Son, what do you have in your hand?"

"My lunch," the boy replied. The lad was holding his lunch in his hand. It fitted his hand exactly.

Andrew said, "Son, all these people are hungry. The Master wants your lunch to feed these people. Do you believe that He can feed this whole crowd with your small lunch?"

The little boy had great faith. He looked up at Andrew and said, "Yes, Sir, Jesus can do it. I know He can!"

And Jesus did it. Nobody knows how, but He did. What a story the little fellow had to tell his mother when he got home.

The size of the little boy's hand was the perfect size to hold five loaves and two fish. While he held these five small loaves and two fish in his hand, they were the perfect size to satisfy his hunger. But when he put the lunch in the hands of Jesus, it was big enough to feed five thousand people.

And this is why you can have hope of accomplishing some thing beyond the ordinary. The secret is in Jesus' multiplying your life, your faith, your efforts and your vision.

There are millions of people in the world today. Every single one of them has an individual and distinctive set of fingerprints and has differently shaped hands. If God made your hands and fingerprints different, then you may be sure you are something special. He breathed into your nostrils the breath of life, and you became a living soul. You are a child of God.

The shape of your hand is the shape of God's plan for you. Man is God's instrument. God's plan is carried out by those who plan to carry out that plan. You are a child of God. He has an exact and perfect plan for your life. Don't worry about not being big enough or educated enough. The size of your hand is God's size for the job He has called you to do.

**TODAY'S Meditation**

Read Psalm 122

I was glad when they said unto me, Let us go into the house of the Lord. (Psalm 122:1).

The word church has different meanings for different people. For example, it can mean a building for Christian worship, the service itself, organized Christianity. It can mean a denomination or a religious body as distinguished from a national body.

In his first letter to the Corinthian Church, Paul wrote, "The Churches of Asia salute you, Aquila and Priscilla salute you much in the Lord, with the church that is in their house." Paul obviously was referring to the little group of early Christians who frequently gathered in that home. They met to engage in prayer; to talk about their risen Lord, and how to spread His gospel. They told of their religious experiences, and kept their spiritual fires aglow.

The church in Corinth consisted of people who had become followers of Jesus and had dedicated themselves to the extension of His kingdom. Those people were the real body of Christ on earth. So also are today's dedicated Christians.

**PRAYER:** Forgive us, dear Lord for our spiritual laxity as church members. Give us a deeper understanding of what it means to be a Christian. Grant us more of Thy spirit that we may fully dedicate ourselves to the cause of Christ on earth. In His name we pray. Amen.

**THOUGHT FOR THE DAY**  
Today's dedicated Christians are the real body of Christ on earth.

## Mrs. Ann Leavitt Awarded Nursing Scholarship By Hospital Auxiliary

The Scholarship Committee of the Hospital Auxiliary has announced that Mrs. Ann Leavitt, a graduate of Belle Glade High School, 1952 has been awarded the Nursing Loan Scholarship in the sum of Five Hundred dollars for 1962. This entitles her for a two years' course at Palm Beach Junior College in the Nursing Program.

This year the Auxiliary members and the Committee had lengthy deliberations as the several students who had applied for same were all of excellent caliber. This particular course

## Planning A Vacation Tour? Here's Estimated Travel Cost

The American Automobile Association today added \$2 to its estimated daily travel budget for a couple touring by automobile. The new figure is \$31.

While the figures for meals and car operation remained the same, increases were made in the estimates for overnight accommodations and for tips and miscellaneous.

The \$31 estimate breaks down as follows: \$15.50 for meals and snacks, \$7 for lodging, \$7 for gas and oil, and \$2.50 for tips and miscellaneous. The new budget would make the average cost of United States travel by car \$108.50 a week.

In announcing the new travel budget, R. J. Finley, AAA's East

## You Must Exercise To Stay Healthy

You must exercise — something if you want to stay healthy. This is the conclusion of Dr. Noah Sloan, medical director of the Allstate Life Insurance Company.

Unused muscle tissue grows shorter and weaker, Dr. Sloan writes in the spring issue of Allstate's Home and Highway magazine. But exercise will firm up flabby tissues and make you feel better as well.

Tests with patients subjected to long periods of bed rest have shown that their muscles, circulatory systems, and even their bones become weaker, Dr. Sloan says.

The kind of exercise you should do depends on one's age, physical condition and personal preference. A person under 30 can golf, play tennis, swim or skate without any harm if he works up to it and does it regularly. The Allstate publications say one can probably do all of these things up to 30, too, although he should stop when fatigue sets in or when he begins to feel breathless or dizzy.

At that point one has enough. But if quick fatigue forces you to give up fast, competitive sports you should continue to swim and walk, or use your legs by climbing stairs whenever possible, Dr. Sloan says. And in your spare moments you can exercise by sitting and drawing in your stomach.

Weight can be lost through exercise, the Allstate Medical director Sloan writes, but it's a slow process. If you want to reduce, you can do it a lot quicker by cutting down on your intake of calories. Dieting, by the way, is no substitute for exercise because without control is not the whole answer to good health. Even slim people need exercise to improve muscle tone, digestion and circulation.

By W. S. C. S. — WY 6-5186

Miss Patty Hendry and Miss Alice Faye Hendry of Myakka Bay have returned home after a visit with Mr. and Mrs. Jim Hendry. While here they visited West Palm Beach and Miami, and enjoyed a picnic at Fort Myers Beach.

Jimmie Mock returned to his home in Fernandina Beach after a two weeks visit with his mother, Mrs. Marvin Lee, and his sister, Janie and Ronny.

David Prewitt spent the week end in Orlando on business. Mr. and Mrs. Elbert Hester and Beth visited a few days this week with Mr. and Mrs. George Devane, Cathy and Sandy in Lakeland.

Mrs. W. M. Haulcomb returned home Friday after being in the hospital for several days.

Mrs. H. D. Merriam was a dinner guest of the M. M. Bailey family in South Bay Sunday.

Florida Division Manager, pointed out that the \$31 figure for lodging could be at certain seasons in resort areas, and also in other seasons. He also noted the estimates for overnight accommodations and for tips and miscellaneous.

The \$31 estimate breaks down as follows: \$15.50 for meals and snacks, \$7 for lodging, \$7 for gas and oil, and \$2.50 for tips and miscellaneous. The new budget would make the average cost of United States travel by car \$108.50 a week.

In announcing the new travel budget, R. J. Finley, AAA's East

Revision of the estimate followed a report that AAA's accommodations which showed a 16 per cent increase in hotel and motel rates during the past five years.

Mr. Finley said the AAA estimate covers minimum travel essentials. In addition to travel, the touring couple would need according to their wishes, additional amounts for souvenirs, amusements, recreation, admissions to places of interest, tolls and retail purchases. The \$7 daily expenditure for gas and oil, based on covering 300 miles at 15 miles per gallon of gas.

Another item fought by Senator Holland is one that would establish an "emergency public works program of \$750 million with the President having the discretion of automatically renewing the same provisions any other year. The Senator feels that this would be a vote of "no confidence" in recovery of general prosperity. "Greater confidence on the part of the nation is very badly needed right now," the Senator says.

The Senator's proposal to eliminate poll or any other tax as a requisite for voting for federal officials is progressing through legislative procedures and he hopes "it will be submitted to the House."

The Federal budget for Fiscal Year 1963 contains an item in the amount of some \$9.4 billion for interest on the national debt. This represents an interest rate of 3.2 percent as of April 30, 1962. Yet nowhere in the budget is there an item marked for payment on the debt itself," Congressman Rogers pointed out to the Committee.

Continuing Rogers stated, "This Nation is engaged in a great struggle for the survival of its freedoms. The global conflicts which we have experienced in recent years are certainly major factors in our increasing indebtedness. Our resources are tapped with needs for huge armies and expenditures into our future. Our National economy is fortunately able to accommodate most of these essential expenditures.

"However, there are many programs which are not essential to the survival of democracy. It is this sort of non-essential spending which I believe to be against the best interest of our Nation's welfare.

"The reduction of the National debt must be done on an orderly, programmed basis. Should the Ways and Means Committee approve legislation to apply 1 percent of the debt as payment on the National debt itself, with no change in the current debt ceiling of \$285 billion, the debt could be reduced to \$232 billion in 20 years, and \$172 billion in 50 years.

"This reduction in principal would result in a saving of nearly \$19 billion in interest expense alone for the first 20 years, and a savings of nearly \$100 billion in interest costs over 50 years."

Regarding the other reserve units, Congressman Rogers said, "At the onset of World War II, American reservists were among the first to make sacrifice and meet the challenge. When North Korea Communism invaded South Korea, American reservists became integral members of our task force there. Even now we have more than 150,000 reservists on active duty."

"Not only does the United States require powerful deterrent forces for strategic and tactical missions, but the Guard and Reserves have key roles in the defense of the homeland. I respectfully urge that the (Armed Forces) Committee exercise again the same wisdom it has previously used by continuing America's Reserve and National Guard forces at their present strength," Congressman Rogers stated.

Mr. and Mrs. James Hendry and their family returned home after a visit with Mr. and Mrs. Jim Hendry. While here they visited West Palm Beach and Miami, and enjoyed a picnic at Fort Myers Beach.

Jimmie Mock returned to his home in Fernandina Beach after a two weeks visit with his mother, Mrs. Marvin Lee, and his sister, Janie and Ronny.

## Do You Know?

The sleek, powerful diesel electric locomotives that haul the "Super Continental" passenger trains across the Continent make the longest continuous diesel passenger run on the North American Continent.

It is 2424 miles from Montreal in Quebec Province to Vancouver in British Columbia, and the "Super" diesels which haul them travel every afternoon in the year operate right through to Vancouver in 69 hours and 24 minutes — without change.

But the route is changed 15 times at various divisional points across the country, of course, but the same diesels that leave Montreal operate right through to the Pacific Coast, taking on fuel en route as required.

When the "Super" diesels reach Vancouver they are fueled, serviced, turned and sent back across the Continent — another 2424 miles.

In crossing the Continent, the Canadian diesel diesels traverse some of the most interesting and scenic regions of Canada, stopping at such great Canadian cities as Ottawa, Winnipeg, Saskatoon and Edmonton.

The route takes the diesels and its string of sleeping cars and coaches and mail and express cars through the broad and fertile valleys of the St. Lawrence and Ottawa Rivers, through the vast lake and forest areas of Northern Ontario; across the rich Manitoba prairie lands of Saskatchewan; through the Peace River country, and the Fraser River to the shores of the Pacific at Vancouver. ## NEGRO NEWS In Service

Army PFC Walter R. Watson, son of Walter C. Watson, 625 S. W. Seventh St., Belle Glade, Fla., recently participated with other personnel from the 8th Infantry Division in Exercise Surgeon, a week-long medical field training maneuver in Germany.

The exercise was designed to test the capabilities of Seventh U. S. Army medical units to provide full medical support for combat units under all conditions of limited and no warfare. The training emphasized the care, treatment and evacuation, by road, rail and air, of simulated casualties from a combat zone.

Watson is an ambulance driver in Headquarters Detachment of the Division's 8th Medical Battalion in Wackenheim. He entered the Army in December, 1960, completed basic training at Fort Benning, Ga., and was stationed at Fort Ord, Calif. before arriving overseas last October.

The 21-year-old soldier is a 1959 graduate of Lake Shore High School and was employed at Belle Glade Memorial Hospital before entering the Army.
